

(ENIAC move)
OK'd

Feb. 7, 1983

Move from Marlboro to Boston

Priority : Artifacts and all Graphics

- * Four Generations
- Hollerith Tab-&Sorter
- Jacquard Loom
- PowerSamas
- Enigmas

Track lights not compatible with track at wharf)

- Calculator Case
- Memory Case
- Lehmer Sieves
- TZ boxes

* Have Autovision shipped to Marlboro
Feb 3

Four Generations

Pieces on wall can be pulled off by hand or hammer and packed in bubble wrap. Make sure record the # before put in box.

Large, free standing pieces should be disassembled when not possible to move as is. Keyboards should be numbered, wrapped in bubble and taped to machine. All CRTS need to be wrapped in bubble wrap.

Phulco 212 - take off modules from one rack for store. Machine stays.

Things w/stands - Stands should get same # as artifact.

Text - put in separate pkg of same container when applicable. IR keep all 1st box, text together etc

CHRIS

PACKING LIST

FIRST GENERATION

| <u>Number</u> | <u>Name</u> | <u>Value</u> |
|---------------|------------------------------|--------------|
| X75. | 3 Raytheon Vacuum Tubes | |
| X63.82 | 4 Transitron Diodes | |
| D29.73B | Core Memory Plane | |
| D391.83 | CVC Module | |
| X66.82 | Manchester Mark I Logic Door | |
| X209.83 | Vacumm Tube Module | |
| D12.75 | IBM 650 Vacuum Tube Module | |
| XD15.81 | SAGE Module | |
| XD4.75 | Chassis from Electric Deuce | |
| X65.82 | Deuce Drum | |
| X102.82 | Burroughs Pin Board | |
| X82.82 | UNIVAC Tape | |
| X14.81 | LGP-30 | |
| X48.82 | Bendix G-15 | |
| X184.83 | Sperry UNIVAC CP-642 | |

Bill pack the UFO's:

CRC Module
IBM 701 8 Vac. Tube Module

Exhibits Department Memo
to: Staff

3

10/31/83
ID# .12

<gwen/ex>By end of January plans should be relatively definite about what machines we are including in the exhibits to open in September so that we can know when to bring them in to Boston or send them to Contoocook.

<geri>By beginning of February I would like to have a very tough carpet or some other flooring down in Bay 1 of Floor 6. This is to be our study collection area and most of the machines that I would like to bring in during February should go in this space. Since this will be a semi-private space its not necessary to have carpet as long as the gross floor is covered up.

Meredith

Memo to: The Staff
From : Chris and Meredith
Re : The Move to Boston

Almac Movers has agreed to move the Museum (collections and office equipment) down to Boston free of charge! In return for this service in kind, Almac becomes our latest Corporate Founder.

We have already had a first meeting with Almac in order to lock in dates and times, because we are at the mercy of their scheduling. In so doing, we have come up with a preliminary outline for the move. Since this affects all of us, read on to see what's being moved when, and what some of the issues are.

MOVE NUMBER ONE (November 29, 1983)

- A smallish move that will essentially set up the exhibits office downtown.
- What will be moved are the desks, chairs, and file cabinets relating to exhibits, Pat's Decmate and as many terminals as decided upon, extra tables, and some brown chairs.
- Almac will be using a smaller truck and will use the time to assess the actual logistics of moving the larger stuff during the next move.

MOVE NUMBER TWO (February 7, 1984)

- The smaller exhibit pieces (Kurzweil, minuet exhibit, Jacquard loom and stand, etc), all free-standing items in the 2nd Generation exhibit (to free that space up to be a staging area for Move #3), and anything that people could hide under their coats and cart away. A/V materials also go.

MOVE NUMBER THREE (March 6, 1984)

- This is when the rest of the office gets moved. Almac has provided us with booklets on procedures for moving. Try to read it as the time approaches. But the main things to know are:
 - * desks must be empty
 - * file drawers don't have to be empty, but they must be taped or locked
 - * nothing in file drawers should be loose
 - * free-standing shelving must be taped or wired so shelves don't fall out
 - * in moving terminals, disconnect keyboard, wrap it in bubble-wrap, place it on top of terminal, and tape the two together
 - * Almac will provide us with coded stickers so we can mark where things go in Boston

MOVE NUMBER FOUR (To be arranged mid-May)

- All machines except the Illiac 4, calculator cases, calculating devices, memories, photomurals, and exhibit support panels

MOVE NUMBER FIVE (To be arranged last week in May)

- Illiac 4
- Cage stuff.

MOVE NUMBER SIX (To be arranged in Fall '84)

- Whirlwind and Timeline exhibit and the archives

We haven't set the dates for moves four through six because they hinge on how things are developing downtown. In March, after the big office move, then the dates will be set.

ISSUES:

- Are we taking the lecture hall sound/light system? If so, then arrangements need to be made for de-installation.
- What is happening with the Store? No arrangements for moving it were made with Almac, as it was our impression that the Store stays here indefinitely.
- Arrangements need to be made with Field Service for a disconnect of our system. Possibly on March 5th, the day before the move or earlier if necessary. In any event, everything needs to be ready to go by the 6th.
- Insurance...Almac insures for \$5.00 a pound. If any additional riders are necessary, that needs to be taken care of.
- Illiac 4. Next to the Whirlwind, this is the most problematic piece to move. Meredith will talk with Jay Patton re: how best to do it. It will require a totally separate move.
- Shipping must be notified of all arrangements as the loading docks and freight elevators would be tied up on moving days.
- Almac will need blueprints where everything goes downtown and the floors have to be marked indicating where the big equipment goes
- Must notify the WHarf people and Children's so can arrange traffic flow.

| CALENDAR OF EVENTS | Move #1 | Move #2 | Move #3 |

FINAL MOVE: MARLBORO TO BOSTON
From: Meredith Stelling
To: Museum staff, Bob Reidel, Ed Potter, Debbie Greenberg

8/14/84

MOVE 1: ~~WEDNESDAY~~ ^{THURSDAY}, SEPTEMBER 6, 1984

(PACKING MATERIALS DELIVERED ON AUGUST 27 TO LOADING DOCK)

LOBBY:

| <u>Object</u> | <u>Pieces</u> | <u>Packing requirements</u> |
|--|---------------|---|
| ✓ PDP-1 | 3 | (disconnect cables, wrap switches, display to go on separate pallet) |
| ✓ Stretch | 4 | (box core memory, box typewriter, plant engineering to remove console mounted on wall, Almac to make special pallet to hold desk console) |
| (send one unit to storage w/ Iliac) still to go ✓ CDC 6600 | 4 | (tape down cables, box core memory, secure grey doors or remove, remove power sockets on bottom ends of CPU pieces if possible) |
| ✓ ASC | 2 | (secure loose panels, cables) |
| ✓ Tinkertoy | 1 | (Almac to slide into D-container on day of move, plant engineering needs to remove sliding glass door to get machine out) |
| ✓ PDP-10 | 2 | (take down and box) |
| ✓ Turtle | 3 | (box) BRING KEY TO CABINET. |

CAGE:

| | | |
|---------------|-------|--|
| D-containers | 4 | } to 5/6 |
| Boxes | 10-15 | |
| Tables | 5 | |
| File cabinets | 4 | |
| WW drawings | 1 | |
| | | (large metal crate outside CAGE, top needs taping) |

still to go

kitchen stuff cleared out of CAGE → 5/4

FINAL MOVE: MARLBORO TO BOSTON
From: Meredith Stelling
To: Museum staff, Bob Reidel, Ed Potter, Debbie Greenberg

8/14/84

MOVE 2: TUESDAY, SEPTEMBER 11, 1984.

SPECIAL PACKING PARTY, SUNDAY, SEPTEMBER 9TH. STRONG ARMS AND BACKS ONLY.

LOBBY:

ILLIAC IV Many!

The ILLIAC IV must be broken down into its many parts so that it can fit out the door. Thus, 6 volunteers and 2 staff members will spend a few hours on Sunday to take apart and pack the ILLIAC IV. All individual pieces will be placed on pallets. All frames except the left lower should be empty for the movers.

All pieces need to be carefully labeled so that only 1/3 of the ILLIAC IV goes to Boston. The rest will go to the Industrial Warehouse in Leominster, Mass.

*and one CPU piece of stretch
Stretch photo to Boston*

www dungs by CAE

Comments:

copy to IDE

Almac will be using large trailers so Museum Wharf should clear the parking lot at noon on September 6 and 2pm on September 11.

8/16

Louis at MR02 Shipping should be notified to schedule loading dock time for Almac on these two days.

DEC security needs to open the CAGE on September 6 and make sure that all paperwork is completed for the Museum to move out the rest of their machines.

- ✓ DEC Plant Engineering will need to take down the Stretch console and remove the glass doors on the Tinkertoy display case by September 5.
- ✓ Andy Kristoffy and Shag Graetz will pack the PDP-1 on August 29.
- ✓ Jay Patton needs to be notified about the takedown of ILLIAC IV. *He will not be coming. Not necessary*

IF I HAVE OVERLOOKED ANYTHING LET ME KNOW, MTS.

Get members to help w/ Illiac IV

- ① Ian ^{Malennan} ~~Fleming~~ 449-2000
- ② Bill Ricker 485-2537
- ~~③ Ed Galun 271-7854~~
- ④ Greg Tutunjan 467-6874
- ⑤ Steve Emmerich 237-1022

LIST OF MACHINES TO BE CLEANED/REPAIRED/SET UP
FOR NOV 1 BAYS 6-4 and 5-4

SAGE arithmetic units - tops must be added, when appropriate cables attached to ceiling, top frames are located in boxes ~~in~~ just outside CAGE.
- dust all parts of machine

SAGE drum memory - top middle drum must be opened out from machine and secured. ~~All~~ other drums must be secured so that they ABSOLUTELY CANNOT open. Clean plexi & dust.

SAGE core memory - clean plexi, dust.

SAGE consoles (maint.) - clean carefully, especially the smaller one, make sure all labels present.

Punched card equip - clean, repair any broken parts if possible.

Whirlwind arithmetic units - take tags ^{behind plexi} off of unit if possible. Clean.

MERE ★ Add plexi protection to wired sides.

Whirlwind control panel - clean.

will arrive Nov. 8 or 9

UNIVAC tape drive (uniseruo) - thread reel, clean
UNIVAC typewriter - clean.
UNIVAC model - who knows? will need lots of cleaning and probably some last minute repair.

SAGE display consoles - lots of cleaning, add books, make sure light guns attached.

August 15, 1984

Robert Riedl
Digital Equipment Corporation
Marlboro Security
200 Forrest St.
Marlboro, MA 01752

Dear Mr. Riedl:

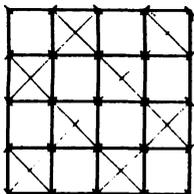

Chris Rudomin has left the Museum so I will be coordinating the last move of the Museum's machines and equipment from Marlboro to Boston. Due the overwhelming size of the ILLIAC IV, we have decided to make that a separate move after all else has been cleared from the MR02 lobby area. The two moving dates have been established as Thursday, September 6 and Tuesday, September 11. I have enclosed a memo that list what pieces will be moved on which day.

I would like permission for members of our exhibits staff and members of the Museum to pack the objects for the first move on August 29 and 30 during the day and possibly until 7pm. I also need to have security open the MR02 lobby at noon on Sunday, September 9 so that 2 staff and 6 volunteers can take apart the ILLIAC IV and not disrupt the normal flow of traffic through the lobby.

Please let me know if you forsee any problems. Thank you for your assistance.

Sincerely,

Meredith T. Stelling
Exhibits Director

FINAL MOVE: MARLBORO TO BOSTON
From: Meredith Stelling
To: Museum staff, Bob Reidel, Ed Potter, Debbie Greenberg

8/14/84

MOVE 1: WEDNESDAY, SEPTEMBER 6, 1984

(PACKING MATERIALS DELIVERED ON AUGUST 27 TO LOADING DOCK)

LOBBY:

| <u>Object</u> | <u>Pieces</u> | <u>Packing requirements</u> |
|---------------|---------------|---|
| PDP-1 | 3 | (disconnect cables, wrap switches, display to go on separate pallet) |
| Stretch | 4 | (box core memory, box typewriter, plant engineering to remove console mounted on wall, Almac to make special pallet to hold desk console) |
| CDC 6600 | 4 | (tape down cables, box core memory, secure grey doors or remove, remove power sockets on bottom ends of CPU pieces if possible) |
| ASC | 2 | (secure loose panels, cables) |
| Tinkertoy | 1 | (Almac to slide into D-container on day of move, plant engineering needs to remove sliding glass door to get machine out) |
| PDP-10 | 2 | (take down and box) |
| Turtle | 3 | (box) |

CAGE:

| | | |
|---------------|-------|--|
| D-containers | 4 | |
| Boxes | 10-15 | |
| Tables | 5 | |
| File cabinets | 4 | |
| WW drawings | 1 | (large metal crate outside CAGE, top needs taping) |

- B -

FINAL MOVE: MARLBORO TO BOSTON
From: Meredith Stelling
To: Museum staff, Bob Reidel, Ed Potter, Debbie Greenberg

8/14/84

MOVE 2: TUESDAY, SEPTEMBER 11, 1984.

SPECIAL PACKING PARTY, SUNDAY, SEPTEMBER 9TH. STRONG ARMS AND BACKS ONLY.

LOBBY:

ILLIAC IV Many! The ILLIAC IV must be broken down into its many parts so that it can fit out the door. Thus, 6 volunteers and 2 staff members will spend a few hours on Sunday to take apart and pack the ILLIAC IV. All individual pieces will be placed on pallets. All frames except the left lower should be empty for the movers.

All pieces need to be carefully labeled so that only 1/3 of the ILLIAC IV goes to Boston. The rest will go to the Industrial Warehouse in Leominster, Mass.

Comments:

Almac will be using large trailers so Museum Wharf should clear the parking lot at noon on September 6 and 2pm on September 11.

Louis at MR02 Shipping should be notified to schedule loading dock time for Almac on these two days.

DEC security needs to open the CAGE on September 6 and make sure that all paperwork is completed for the Museum to move out the rest of their machines.

DEC Plant Engineering will need to take down the Stretch console and remove the glass doors on the Tinkertoy display case by September 5.

Andy Kristoffy and Shag Graetz will pack the PDP-1 on August 29.

Jay Patton needs to be notified about the takedown of ILLIAC IV.

IF I HAVE OVERLOOKED ANYTHING LET ME KNOW, MTS.

OK. *mere*

memo to: Geri / Meredith / Lea (please circulate)
From : Chris
Re : May 23rd Move.

Don Miner has agreed to let the Museum keep its exhibit stuff in the Marlboro lobby until September; but the materials in the 2 triangles and the Twilight Zone need to be moved.

Consequently, on 23 May, Almac will bring all the remaining store stuff (including furniture) and archival materials. TX-O equipment will be moved down into the cage for security.

Shipment of bubble wrap/boxes will be some time after May 11th.

Security has been notified about moving dates only. And my agreement w/ Don Miner is verbal over the phone.

Issues:

May 16 Bill / mere

who is boxing up remaining materials for shipment and when.

Who will supervise the 23rd move from Marlboro.

should I get my agreement w/ Miner in writing.

P.S. I can do this (if you like), since I'm much closer than mere + Lea. It'll just have to be after the 11th.

↑ that would be great!
Sounds good / let me know if you need anything / Lea

Jay Patton
Manager, Installation Planning Department
Burroughs Corporation
P.O. Box 517
Paoli, PA 19301

Dear Jay:

I am very pleased to hear that you will be able to join us in early September for the deinstallation of the Computer Museum's ILLIAC IV exhibit in Marlboro and it's reinstallation in Boston. Your expertise and direction will greatly facilitate this complex move.

Tentatively, I would like the takedown to occur on Monday, September 10th, the move on Tuesday, September 11th and the installation on Wednesday, September 12th. This may be too much time allotted to each event; however, past experience indicates that moves are always more complex than one expects.

I will contact you in early August with more specific information. At that time, you can better predict how much time you will be able to spend with us and perhaps with more manpower we can move in two days rather than three. Of course, we will pay for your transportation, accomodation and dinner expenses. Also, if you wish, we would be happy to make travel and hotel arrangements for you.

I greatly appreciate your support of The Computer Museum and thank you in advance for your assistance with the ILLIAC IV move.

Sincerely,

Meredith T. Stelling

April 5, 1984

Memo to: Mike Hathaway
From : Chris Rudomin
Re : May 23rd, the Museum's next moving day

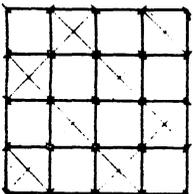

On May 23rd, first thing in the morning, Almac will be coming in to move more of the Museum's collection. Going to Boston this time will be all of the remaining store merchandise and furniture and all of our archival materials upstairs in "the twilight zone" (that strange little space up on the fifth floor, the only access to which is by the stairs). Staying until September will be all the exhibitry in the MR02 lobby (this has been cleared with Don Miner). Almac will also move some of the TX-0 equipment that we have stored in the office downstairs to the space in the boiler room. We will need access to the boiler room at that time.

Meredith Stelling will supervise the move on the 23rd.

On May 14th and 15th, we will send out some of the Museum staff to do the packing in advance. Please let me know if you have any questions.

Thanks a lot, Michael.

May 11th

OK May 23
- lobby stuff + super comp w/ Illiac 4
TZ
Cage stuff

MOVE NUMBER FOUR (To be arranged mid-May)

- All machines except the Illiac 4, calculator cases, calculating devices, memories, photomurals, and exhibit support panels

MOVE NUMBER FIVE (To be arranged last week in May)

- Illiac 4
- ~~Cage stuff~~

OK - May 30 or 31st

MOVE NUMBER SIX (To be arranged in Fall '84)

- Whirlwind and Timeline exhibit and the archives

Remainder STORE

We haven't set the dates for moves four through six because they hinge on how things are developing downtown. In March, after the big office move, then the dates will be set.

ISSUES:

- Are we taking the lecture hall sound/light system? If so, then arrangements need to be made for de-installation.
- What is happening with the Store? No arrangements for moving it were made with Almac, as it was our impression that the Store stays here indefinitely.
- Arrangements need to be made with Field Service for a disconnect of our system. Possibly on March 5th, the day before the move or earlier if necessary. In any event, everything needs to be ready to go by the 6th.
- Insurance...Almac insures for \$5.00 a pound. If any additional riders are necessary, that needs to be taken care of.
- Illiac 4. Next to the Whirlwind, this is the most problematic piece to move. Meredith will talk with Jay Patton re: how best to do it. It will require a totally separate move.
- Shipping must be notified of all arrangements as the loading docks and freight elevators would be tied up on moving days.
- Almac will need blueprints where everything goes downtown and the floors have to be marked indicating where the big equipment goes
- Must notify the WHarf people and Children's so can arrange traffic flow.

Memo to: The Staff
From : Chris and Meredith
Re : The Move to Boston

Almac Movers has agreed to move the Museum (collections and office equipment) down to Boston free of charge! In return for this service in kind, Almac becomes our latest Corporate Founder.

Get D. Lombard

We have already had a first meeting with Almac in order to lock in dates and times, because we are at the mercy of their scheduling. In so doing, we have come up with a preliminary outline for the move. Since this affects all of us, read on to see what's being moved when, and what some of the issues are.

MOVE NUMBER ONE (November 29, 1983)

- A smallish move that will essentially set up the exhibits office downtown.
- What will be moved are the desks, chairs, and file cabinets relating to exhibits, Pat's Decmate and as many terminals as decided upon, extra tables, and some brown chairs.
- Almac will be using a smaller truck and will use the time to assess the actual logistics of moving the larger stuff during the next move.

*Ed. Mirror
boxes for
gaps
calculators
pamphlets*

MOVE NUMBER TWO (February 7, 1984)

+B

*Small calc. Ex.
Chip. Ex.
A gen memories*

*Cased corridor
Emerson
EX Support
Panel*

- The smaller exhibit pieces (Kurzweil, minuet exhibit, Jacquard loom and stand, etc), all free-standing items in the 2nd Generation exhibit (to free that space up to be a staging area for Move #3), and anything that people could hide under their coats and cart away. A/V materials also go.

MOVE NUMBER THREE (March 6, 1984)

Emiac Timeline / usw.

- This is when the rest of the office gets moved. Almac has provided us with booklets on procedures for moving. Try to read it as the time approaches. But the main things to know are:

- * desks must be empty
- * file drawers don't have to be empty, but they must be taped or locked
- * nothing in file drawers should be loose
- * free-standing shelving must be taped or wired so shelves don't fall out
- * in moving terminals, disconnect keyboard, wrap it in bubble-wrap, place it on top of terminal, and tape the two together
- * Almac will provide us with coded stickers so we can mark where things go in Boston

Memo to: Mike Hathaway
From : Chris Rudomin
Re : Whirlwind Move on March 1st.

As you know, the Whirlwind exhibit will be moved by ALMAC and shipped first thing in the morning to MITRE. I have itemized below exactly what will be going:

- 6 photo mural panels
- 1 core memory stack
- 1 console panel
- 2 bit slices
- 1 fixed head drum

These artifacts, excluding the oscilloscope which will go down to Boston with us, constitutes the Whirlwind exhibit in its entirety. Once this material is loaded on the truck, that exhibit space will be completely empty and ready for Marlboro construction to begin their work.

Memo to: Michael Hathaway
From : Chris Rudomin, The Computer Museum
Re : Removal of the Whirlwind Computer Exhibit
and a Packing Party on 3/1/84

In last my memo to you, dated 2/22/84, I mentioned that the Whirlwind exhibit was going to be shipped to MITRE Corporation in Bedford. The date that now has been set for that move is Thursday, March 1st, in the morning. The designated shipper is ALMAC Movers and arrangements have been made with Steve Trumpolt at the MR01 loading dock to have the ALMAC truck load up from there.

You should know that ALMAC will have to specially crate the exhibit, so it might take them the better part of the morning to accomplish the task.

Additionally, on the afternoon of the 1st, we will have about 5 volunteers come in to help us pack up what remains of the Pioneer timeline. None of them are DEC employees, but The Computer Museum staff will be with them the entire time. I expect that we will all work until no later than 7 p.m.

Let me know if you have any questions Mike.

THANKS!

February 23, 1984

Memo to: Charlie Kane, Plant Engineering
From : Chris Rudomin, The Computer Museum
Re : Removal of Whirlind exhibit on 3/1/84

On March 1st, at 8:30 in the morning, ALMAC movers is coming to move the Whirlwind exhibit out of that recessed space on the mezzanine (above the cafeteria), and as such, they will need easier access to that space.

Is it possible for your people to remove all the tables and chairs in front of that exhibit so that ALMAC can move their equipment in more easily?

Please let me know, so I can give ALMAC the final go ahead.

Thanks Charlie.

Chris

INTEROFFICE MEMORANDUM

TO: Gerri Roger
CC: Nancy Eagan
Don Miner
Chris Ruderman

DATE: February 20, 1984
FROM: Allen Deacon
DEPT: Office Services
EXT: 231-6869
LOC/MAIL STOP: MRO3-2/R15

SUBJECT: MUSEUM MOVE OUT

This memo is to confirm the agreement we came to during our meeting in your MRO2 office on Tuesday, February 14th. I discussed with Don Miner the comparison of value of our office furniture to your Audio/Visual Equipment and agreed you could take the furniture in exchange for the A/V Equipment.

The only item that there is a question on is whether or not you will be able to take the Steelcase Panels (Six 4-foot Panels, Nine 3-foot Panels, and Three 2-foot Panels). This issue will have to be worked out before your move on March 6th and 7th.

I will inform security and shipping/receiving of this agreement so there will be no delay on the day of the move.

AD/st

February 22, 1984

Memo to: Mike Hathaway, Security
From : Chris Rudomin
Re : Museum Move to Boston on 3/6/84

First Mike, my apologies for the electronic door having to be open for so long yesterday. It's a feeble excuse, but I was operating under the assumption that the move of the exhibit panels would only take about an hour and a half. Obviously, now we know different. If this got you into any trouble at all, please direct all inquiries to me and I will make a full explanation.

Through it all, however, the move marches on. The next one is slated for March 6th, with ALMAC scheduled to arrive at about 8:30 a.m. I expect that the move, which will include the rest of the Timeline exhibit, all office stuff, our kitchen supplies (no kitchen equipment, just the pots and pans we bought), and a major portion of the museum store will take the whole morning to do. And at this point, there are no plans for special door accesses, etc.

It has also been decided that the Whirlwind exhibit will be moved to MITRE corporation where it will be on exhibit until we re-open downtown (it's the machine's 25th birthday and a lot of people at MITRE were part of it's development). I don't know, as of yet, if that means ALMAC will move the Whirlwind on March 6th, or earlier. If it's earlier, I'll let you know.

Can you now send me a memo back, giving us your blessing, so there are no slow-ups on the 6th. I want to be sure I can get everything out the door I need to, without anyone saying, "who gave you permission to take this/that".

Thanks a bunch, Mike and I'll see you Monday.

Don--for the record and for the comfort of those people who will be actively involved in our move (Office Services, Security, Construction, Almac Movers etc.), we would appreciate a short note from you confirming that you have agreed to let us remove all of our office furniture and panels from the building in exchange for the audio-visual equipment, lighting fixtures, and lobby furniture we are leaving behind. We want to avoid any questions that may arise on moving day when any delays would cause massive confusion and inconvenience to all parties.

Thanks for your help.

Memo to: The Staff
From : Chris, Geri, and Mere
Re : March 6 Move

The March 6 move to Boston is complex enough that we're circulating this memo so that everyone will know what's happening when, and what your own individual responsibilities are. If you have any questions, PLEASE ask them now - so we can make the transition as smooth as possible.

WHAT'S GOING

All office equipment: that includes tables, chairs, partitions, the works.

Kitchen supplies (this doesn't include kitchen equipment)

Store Merchandise: all merchandise except enough of the 50 items that are in the catalogue, in order to cover stragglng mail order requests

Timeline Exhibit (including Whirlwind and ENIAC)

All Stationery squirreled away in various storage areas

All photomural panels

D DAY - MARCH 6

Almac (also known as the A-Team) arrives in Marlboro at about 8:30. They will have two teams working simultaneously: one just to do exhibits and one to do offices.

There should only be two staff people out in Marlboro that day and that will be Chris and Mere. This means that when you leave the office the night before, everything should be ready to go and clearly marked. Whatever is left behind that Chris and Mere don't know about will get tossed out by Plant Engineering.

Geri and Greg will supervise things downtown. Geri will supervise office installation and Greg will supervise exhibits stuff.

CALENDAR FOR MARCH 6 MOVE

2/21 Packing materials arrive. Panels, and Calculator cases go downtown. Almac also moves machines for 4 Generations exhibit into place.

- 2/27 Marlboro Construction takes down office partitions.
- 2/29 At 4:00, Geri backs up everything on the system. Plan on the system being down for an hour or so.
- 3/1 Packing Party in late afternoon and early evening if necessary. Mere will be contacting designated members to help out.
- 3/2 Geri will supervise the systems disconnect. Be sure to take anything off on a floppy that you need to use before system is reconnected.
- 3/5 This is the day you should pack up your belongings. Start earlier if you think you need the time because 3/6 is the day everything goes.
- 3/6 Moving Day: Almac loads up in Marlboro and transports to Boston. When they get to Boston, office equipment that's on floor 5 gets moved to floor 6. Then Almac unloads the truck and takes everything to its marked designation, according to the floor plan.
- *** Special Note: throughout this period, Carole will supervise her own volunteers to pack up the store.

WHAT YOU HAVE TO DO TO GET YOUR STUFF READY

DESK: All contents must be removed and boxed. Do not overload a box because they get too heavy to move. Tape all drawers to your desk shut or lock it. Label (see below).

FILE CABINETS; You may keep your files inside, but if you do, lay bubblewrap on top of the inside of every file drawer, and tape the wrap to the support bars. This keeps your files from sliding around. Lock files and label.

CHAIRS: They go as is, but do label them.

TERMINALS: Disconnect keyboard from the back and wrap it with bubble wrap. Tape keyboard to top of terminal and leave the whole thing on its stand. Label.

LABELING

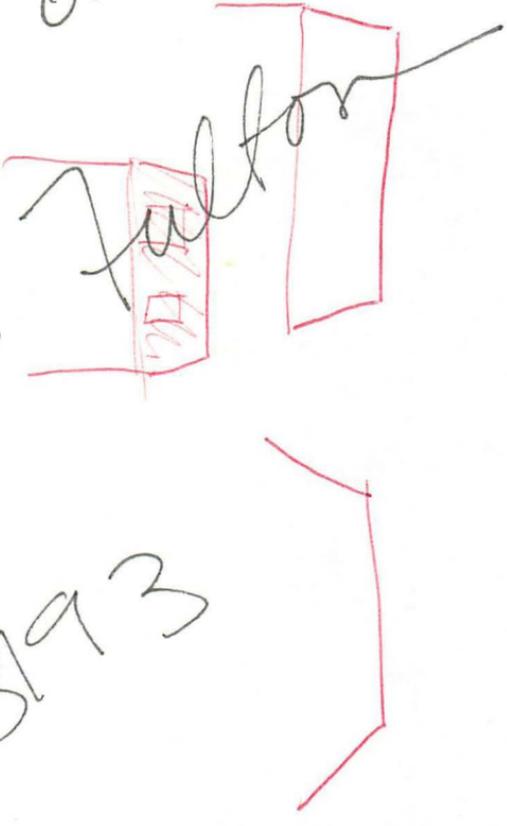

All boxes and furniture pieces should be labelled as follows:

Floor 6, Bay 6, Piece number <you assign>.

You number the piece according to amount that belong to you. For example, if you have 5 pieces in your office area, then number them one through 5.

DOC. 124

Mr. Ed Potter
Almac Moving and Storage
35 Turnpike Road
Southboro, MA 01745

Dear Mr. Potter:

At the suggestion of Ray Travis, I am writing to inquire if Almac Moving and Storage would consider donating the use of ~~some~~ trucks and personnel to assist The Computer Museum in its move to Boston this spring.

13
As you know, Almac has been used by the Museum and Digital Equipment Corporation almost exclusively as their vendor for moving and transport, and as such, ~~it is my~~ hope that Almac will now consider making an "in kind" donation. What I would like to arrange is for Almac, on any day designated by you, to allow the Museum the use of one truck and the appropriate number of personnel to move equipment, exhibitry, and office supplies down to our new location at Museum Wharf. Commencing in December, we would hope for one day a month in which we could arrange this. Since we would not want to conflict with your own scheduling, any day that you might designate would be fine.

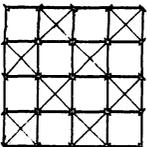

This donation would be tax-deductible ^Q and Almac would also be listed as a Corporate Founder of The Computer Museum, along with Coopers and Lybrand Accounting, Digital Equipment, Tobin Vending ^{Service} and other Corporate Founders listed in The Report. As a Corporate Founder, all employees of Almac would be invited to the special preview period of the new space designated for Corporate Founders only.

I hope you will consider our request for a contribution. Your assistance would make a great difference in terms of the costs we must bear as we make our move to Boston. If there are any questions you might have, or if there are any additional materials you need in order to make a decision, please don't hesitate to call.

I look forward to hearing from you.

Cordially,

Christine B. Rudomin
Programs Coordinator

December 9th, 1983

Mr. Ed Potter
Almac Moving and Storage
35 Turnpike Road
Southboro, MA 01745

Dear Ed:

On behalf of The Computer Museum, I would like to thank you for Almac's donation of in-kind services to the museum. It is an extremely generous donation and one that will greatly simplify our move to Boston.

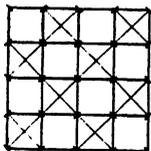

As of this date, the Museum is in receipt of your first invoice, totalling \$643.52. In return for Almac's donation in-kind, Almac will be listed as a Corporate Founder of the Museum, but should the actual cost of the move exceed \$5000, Almac will also be listed on the bronze plaque that is being developed for major contributors.

In order to make things easier for you from now on, each time we receive an invoice, we will send back a receipt for that invoice. Please let me know if there is anything else you'll need.

Cordially,

Christine B. Rudomin

Memo to: Dan Hlozik
From : Chris Rudomin
Re : Computer Museum's move to Boston

cc : Dave Stone

As you may already know, The Computer Museum will be moving to Boston this Spring and in so doing, I wanted to touch base with you concerning the audio-visual set-ups in the MR01 cafeteria.

Our understanding is that the equipment that is physically installed in the cafeteria is to remain and as such, we are planning on taking only the a-v cart with us (which includes the mikes). The projection screen, lights, and drapery will stay in MR01.

Please let me know if you have any questions.

MESSAGE ID: 5217261646

SUBJECT: RE: FOR JAMIE

Back to you, Rudy. Now, now, let me think...First, that's\ great about ALMAC. Hope you get the good-looking movers. It's so much easier that way.

Second, on the sound system. If I remeber correctly, I think there's a file entitled AV or something in my old file drawer, unless Meredith has done some house cleaning. That file might help. If that fails, here's a more positive solution: call our firend Michael Callahan who spec'd the system. He'll tell you exactly what was purchased by the CM. Then call Dave Stone in plant engineering and he may have some further ideas on what belongs to MR and what is ours for the taking. The major purchase MR made was the drapes, and you cannot have those, unless you crazy folks think up a task team to pull them down some dark night. I believe they are also entitled to keep the wiring that goes all around the cafe. But Dave will help lso our friend Dan Hlozik (dave works for him). Dave will also tell you who did the installation. he probably can search for the paper-work as well, re: cross charges, etc.

All's well here. Got your nice letter, only wish it had been lonser. I owe you a long one, I know. I am interviewing for a job in DECUS as editor or several newsletters and general pr ds like an interesting position and one that will keep me tuned into current products instead of history. I'll have to turn the clock ahead, or something.

We're going to Venice for a long weekend sometime this month - it's wonderful that eversthins is so close by...We are really happy here (wasn't it Joan Rivers who said I'M HAPPY!). Stan wishes he could say more than Passez les croissants. We're eating so damn much that even Barney and Marbles are fat. We are just one big fat family. I will have to find the Swiss equivalent of Herman Tarnower, and hope that it doesn't kill me.

Your moonlightins with JB sounds super. Maybe we can make it a threesome when I get back and am educated in la haute cuisine française. my classes start the 22nd, so I am honing my cooking are strange. I sit on the bus and read

November 3, 1983

Mr. Ed Potter
Almac Moving and Storage
35 Turnpike Road
Southboro, MA 01745

Dear Ed:

What a good meeting we had yesterday; my head is still swirling from all of the details. Needless to say, I'm very happy that we're going to be working with you and very appreciative that Almac has agreed to donate this service. We're taking steps here to make sure that Almac is designated a Corporate Founder.

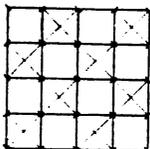

Enclosed find a copy of a memo that Meredith and I sent to the staff. I hope it matches up with your recollection of the meeting. There's also a copy of what will be included in each move. That should be a useful reference on the actual moving days.

Is there anything else I can do? Beyond helping with the actual move, I see myself as a conduit between you and the museum, so let me assist wherever I can.

I'm assuming I'll hear from you as the 29th approaches.

Cordially,

Christine B. Rudomin
Programs Coordinator

Chris —

Pls. excuse inconsistency in spelling pallet. Also, I think we should find out how much Almac is willing to help with the physical

to: Geri, Gwen, Chris, Carole and Greg.

moving of obj's (requires more people than just transporting)

Mere.

SUBJECT: PALLET TRUCK PURCHASE

Need at Wharf:

I have discussed with the Museum Wharf staff the need for a pallet truck to help them unload our large deliveries. Large deliveries include large artifacts (boxed, crated or on pallets), large quantities of supplies (many boxes of Reports etc..) and shipments to the store.

Currently, the Wharf "receiving staff" is not equipped to handle our (usually large) shipments. Debbie Greenberg (426-6500x232) needs at least 3 days notice of any upcoming large shipment to get her people scheduled. (By "large", I mean one that requires more than one person to unload.) Her "receiving staff" has no equipment except a large flat cart which can be used to move things but it can take hours to load it up and then later offload it at its proper destination.

The exhibits department will also need a pallet truck to move our artifacts around the storage and study collection areas, as well as around the exhibits spaces. The store may need to use the pallet truck to move large orders around their storage space and to and from the store and storage spaces. The pallet truck would stay in the exhibits dept. work space on Floor 5, Bay 6 whenever not in use. The Wharf staff would have to come to 5-6 to borrow the truck and would return it after the delivery was made.

Costs:

I have called 2 non-DEC suppliers and received estimates of \$515 and up for a hand-driven, 48" fork, 28" width pallet truck with 4000 lb. capacity. The first DEC supplier Northland Industrial supplied us with the wrong size pallet truck and fork lift during the SAGE move so I am not interested in doing business with them again. The other DEC supplier, Crown, has given me an estimate of \$399 for the same spec. pallet truck. This is at DEC price which means we buy through DEC purchasing and thus pay through the cost center.

Other:

Also, Debbie is looking into a large metal ramp to connect trucks directly to the elevator so that we do not damage the wooden loading dock. I think she will also invest in a few dollies and perhaps a crowbar to lift and move awkward objects that will not fit on the palatte mover.

*** Our friend Ray in shipping uses and recommends the hand-driven Crown palatte truck rather than the motorized palatte truck for our needs.

NOTE: We will need to higher professional movers to move our stuff into the Wharf because the Wharf staff is so small.

Charles Kane
Plant Engineering
Digital Equipment Corporation
MR1-3/A47
Forrest Street
Marlboro, MA 01754

Dear Mr. Kane:

The Museum will be moving out its last exhibits in the MR02 lobby on Thursday, September 6, 1984. I need your help with removing the sliding glass doors that house the Tinkertoy computer exhibit and unbolting an IBM console that is attached to the back wall of the lobby area.

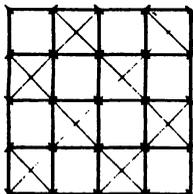

As we discussed by telephone, your staff should remove the glass doors on or before September 5th since Almac will be arriving at 8am the next day to begin the move. The console piece can be removed the morning of the move when I will be present.

I appreciate your assistance.

From : Chris
Re : Inventory of Photomural panels

Please add the following to your inventory for the March 7th move:

1. Eniac Panel #1
2. Eniac panel #2
3. Eniac Panel #3
4. Pascal Adder's inside works
5. Napier's Bones
6. Electrical impulse as seen on a scope
7. Flip Chip (encased in plexiglass)
8. Testing circuitry on Whirlwind or Eniac
9. Page from a book of logarithms

Still to go:

- 4th fl. - IX
- all office furniture and equipment
 - boxed and not yet boxed artifacts
 - boxed magazines, archival materials (boxes)
 - videotapes
 - tables
 - photos/posters/murals
 - plexipanel and box of documentation in stairwell
- 2nd fl - kitchen
- plates, utensils, glasses
 - pots, pans, coffee pot et
- go to kitchen in 5/4
- 1st fl - ladies room
- empty crates use for packing Timeline
- 1st fl. - generations
- panels
 - calc. cases
- PDP 8
- office
- all furniture/equipment/partitions
- Philco must be moved to Cantocook.
- Grnd fl - John McKenzie's room
- stone 2 people] go to vacated rm 5/4
 - typewriters + planimeters
 - ASC stuff, chassis
 - Tinkertoy

- Grand fl
- stairwell panels -
Napier's photoquote etc
 - Supercomputers
 - Cohen's ~~trio~~ trio
 - whatever else is in bottom of cases
 - pallettes

≡

- LA
- CAGE stuff

Memo to: The Staff
From : Chris, Geri, and Mere
Re : March 6 Move

The March 6 move to Boston is complex enough that we're circulating this memo so that everyone will know what's happening when, and what your own individual responsibilities are. If you have any questions, PLEASE ask them now - so we can make the transition as smooth as possible.

WHAT'S GOING

All office equipment: that includes tables, chairs, partitions, the works.

Kitchen supplies (this doesn't include kitchen equipment)

Store Merchandise: all merchandise except enough of the 50 items that are in the catalogue, in order to cover straggling mail order requests

Timeline Exhibit (including Whirlwind and ENIAC)

All Stationery squirreled away in various storage areas

All photomural panels

D DAY - MARCH 6

Almac (also known as the A-Team) arrives in Marlboro at about 8:30. They will have two teams working simultaneously: one just to do exhibits and one to do offices.

There should only be two staff people out in Marlboro that day and that will be Chris and Mere. This means that when you leave the office the night before, everything should be ready to go and clearly marked. Whatever is left behind that Chris and Mere don't know about will get tossed out by Plant Engineering.

Geri and Greg will supervise things downtown. Geri will supervise office installation and Greg will supervise exhibits stuff.

CALENDAR FOR MARCH 6 MOVE

2/21 Packing materials arrive. Panels, and Calculator cases go downtown. Almac also moves machines for 4 Generations exhibit into place.

- 2/27 Marlboro Construction takes down office partitions.
- 2/29 At 4:00, Geri backs up everything on the system. Plan on the system being down for an hour or so.
- 3/1 Packing Party in late afternoon and early evening if necessary. Mere will be contacting designated members to help out.
- 3/2 Geri will supervise the systems disconnect. Be sure to take anything off on a floppy that you need to use before system is reconnected.
- 3/5 This is the day you should pack up your belongings. Start earlier if you think you need the time because 3/6 is the day everything goes.
- 3/6 Moving Day: Almac loads up in Marlboro and transports to Boston. When they get to Boston, office equipment that's on floor 5 gets moved to floor 6. Then Almac unloads the truck and takes everything to its marked designation, according to the floor plan.
- *** Special Note: throughout this period, Carole will supervise her own volunteers to pack up the store.

WHAT YOU HAVE TO DO TO GET YOUR STUFF READY

DESK: All contents must be removed and boxed. Do not overload a box because they get too heavy to move. Tape all drawers to your desk shut or lock it. Label (see below).

FILE CABINETS; You may keep your files inside, but if you do, lay bubblewrap on top of the inside of every file drawer, and tape the wrap to the support bars. This keeps your files from sliding around. Lock files and label.

CHAIRS: They go as is, but do label them.

TERMINALS: Disconnect keyboard from the back and wrap it with bubble wrap. Tape keyboard to top of terminal and leave the whole thing on its stand. Label.

LABELING

All boxes and furniture pieces should be labelled as follows:

Floor 6, Bay 6, Piece number <you assign>.

You number the piece according to amount that belong to you. For example, if you have 5 pieces in your office area, then number them one through 5.

February 3, 1984

Memo to: Geri Mere, Gwen
From : Chris
Re : De-installation of Panels, Calculating Cases, and WWW

The de-install will be no problem at all, and we can do it in the time that we talked about.

Carl Stegerwalt (construction) will send a guy over next week to take the chip panels down and take the calculator cases off the wall (they're screwed in). A week or so later, they will send a crew of guys over to de-install the four generations stuff. That will take about a day. When I know what day that is, I'll let Mere know, because someone should be here to mark how those panels fit together. They assure me that all this can be done in plenty of time for Almac's mini-move on 2/21.

Dan Hlozik's people will take out the overhead and baseboard lighting by the Whirlwind. That will be done in time for the March 6th move.

Both projects will be charged to the cost center. You should know that it is possible for Carl's people to come down to Boston to put the panels up again, if need be. Again, that would be a cost center thing - but at least these guys would know exactly how it all goes together

CONDITIONS OF SALE

Parts Maintenance Parts listed on this invoice will normally consist of (new or used parts) warranted equivalent to new in performance when installed in an IBM machine. Modification and/or replacement parts will normally occur at any time and could affect future availability of any part.

Parts are warranted for 90 days after delivery to the customer or defects in material and workmanship. IBM's obligation is limited to furnishing, on an exchange basis, replacement parts for parts which are proven to be defective by the customer as having been, in his opinion, defective and are so found by IBM upon receipt. THE ABOVE WARRANTY DOES NOT COVER ALL OTHERS EITHER EXPRESS OR IMPLIED INCLUDING, BUT NOT LIMITED TO, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE.

Fair Labor Standards Act

It is hereby certified that the employer has produced this invoice in compliance with all applicable requirements of sections 6, 7, and 12 of the Fair Labor Standards Act, and all applicable regulations and orders of the United States Department of Labor issued under section 14 thereof.

Authorized Customer Signature

IBM does not require customers to sign the Invoice at the time the service is performed. However, since many customers prefer to sign the IR at the conclusion of the service, all Customer Engineers have been instructed to attempt to secure a customer signature when, in the opinion of the C.E., the service performed is potentially billable. The customer signature is an acknowledgment that service has been performed, not the authorization to bill for the service. The authorization to bill is established by the customer's request for service. It is not IBM's obligation to secure customer signature on IR's after invoices have been presented for payment.

Status

- 1—IBM owned machine, service provided within the terms and conditions of the Agreement for IBM Machine Service
- 2—Customer owned machine, service provided within the terms and conditions of the IBM Maintenance Agreement
- 3—Customer owned machine, service provided on hourly pro-rata rate, includes machine on warranty.

| | Mon-Fri. | Saturday | Sunday | Incident Report Time | Continental Time | Clock Time |
|-------|----------|----------|--------|----------------------|------------------|-----------------------|
| Shift | 1 | 4 | 7 | 08:00-17:5 | 08:00-17:30 | 8:00 a.m. - 5:30 p.m. |
| | 2 | 5 | 8 | 17:00-24:0 | 17:31-24:00 | 5:31 p.m. - Midnight |
| | 3 | 6 | 9 | 00:01-07:9 | 00:01-07:59 | 0:01 a.m. - 7:59 a.m. |

The Shift shown on the invoice identifies the shift to which the billable time relates. Billable time on more than one shift for the same service call will be shown on separate invoice lines.

Classes of Equipment

- Class 1—Includes key entry and most terminal equipment.
- Class 2—Includes unit record and accounting machines, and most components of 1130, 1620, 1800 System 3, System 7, and System 360 Model 20 Systems.
- Class 3—Includes most components of 1400, 4000 systems, System 360 Model 22 and above, and System 370 components.

Legend Codes

- A—Service and/or travel time performed during the IBM Maintenance Agreement coverage period.
- B—Type of service performed is not covered by IBM Maintenance Agreement, Agreement for IBM Machine Service or Warranty.
- C—Preventive Maintenance activity performed during IBM Maintenance Agreement coverage period.
- D—Grace period applied.
- E—Equipment serviced is not covered by IBM Maintenance Agreement, Agreement for IBM Machine Service or Warranty.
- F—Billable physical planning service.
- G—Service on IBM equipment required due to non-IBM Attachments or Alterations.
- H—Billable relocation services.
- J—Billable programming services activity.
- K—Engineering change activity performed outside IBM Maintenance Agreement coverage period.
- L—Other.
- M—Service performed at an IBM Repair/Service Center.

Expenses

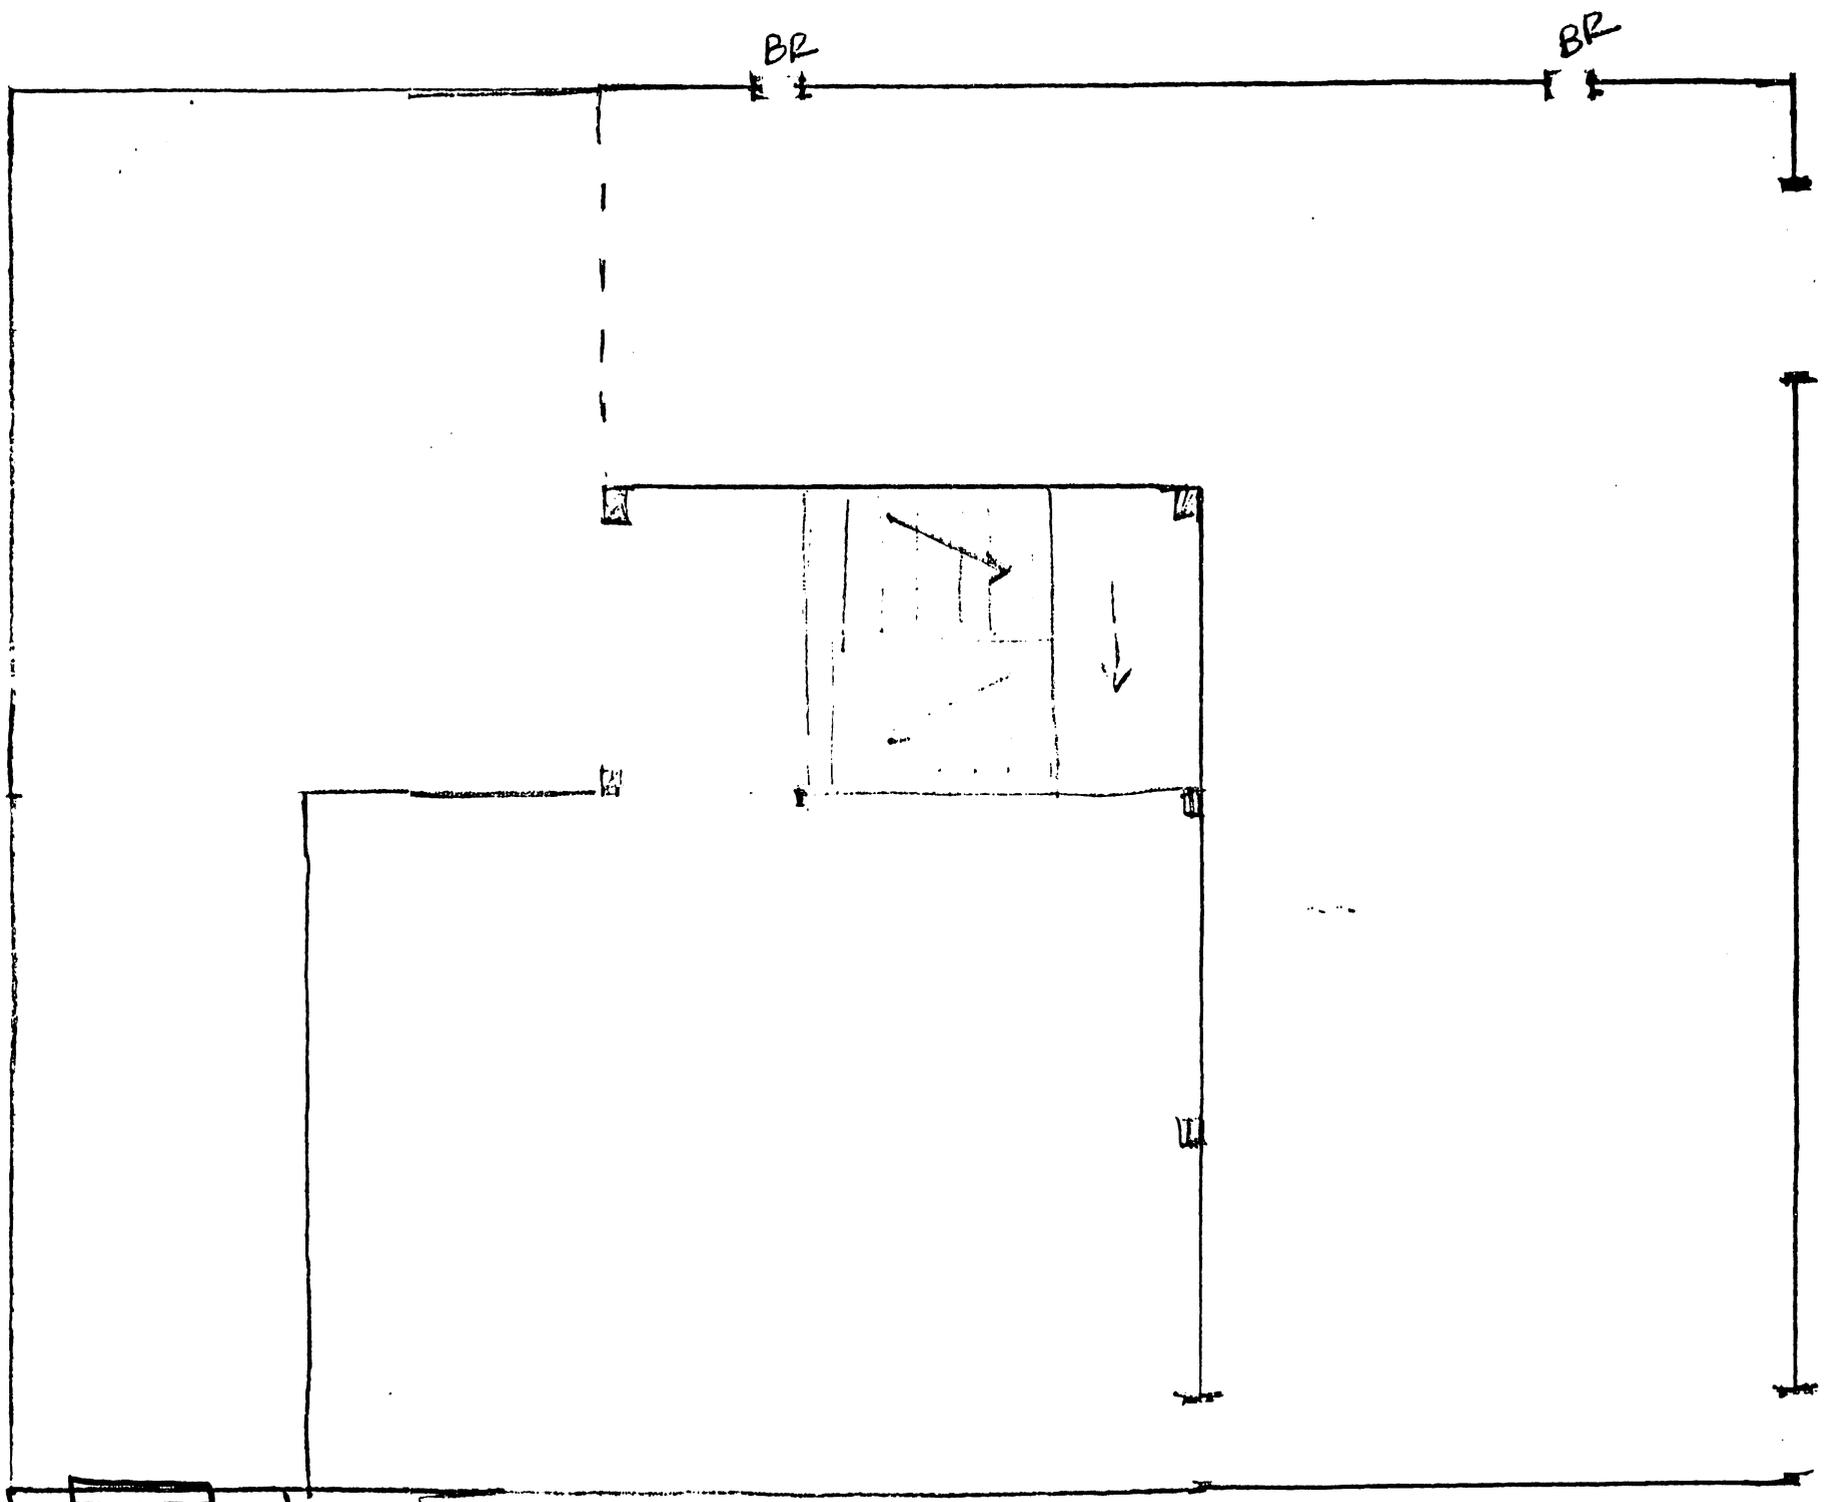

Customer Engineer's mileage & travel expenses (tolls, parking etc.) incurred in connection with billable service will be invoiced.

General

After the discontinuance of rental and/or withdrawal of maintenance agreement service for a product, IBM maintenance and other Customer Engineering services will be available for purchased machines on a time and material basis dependent upon the availability of skills and other resources such as parts, tools and test equipment.

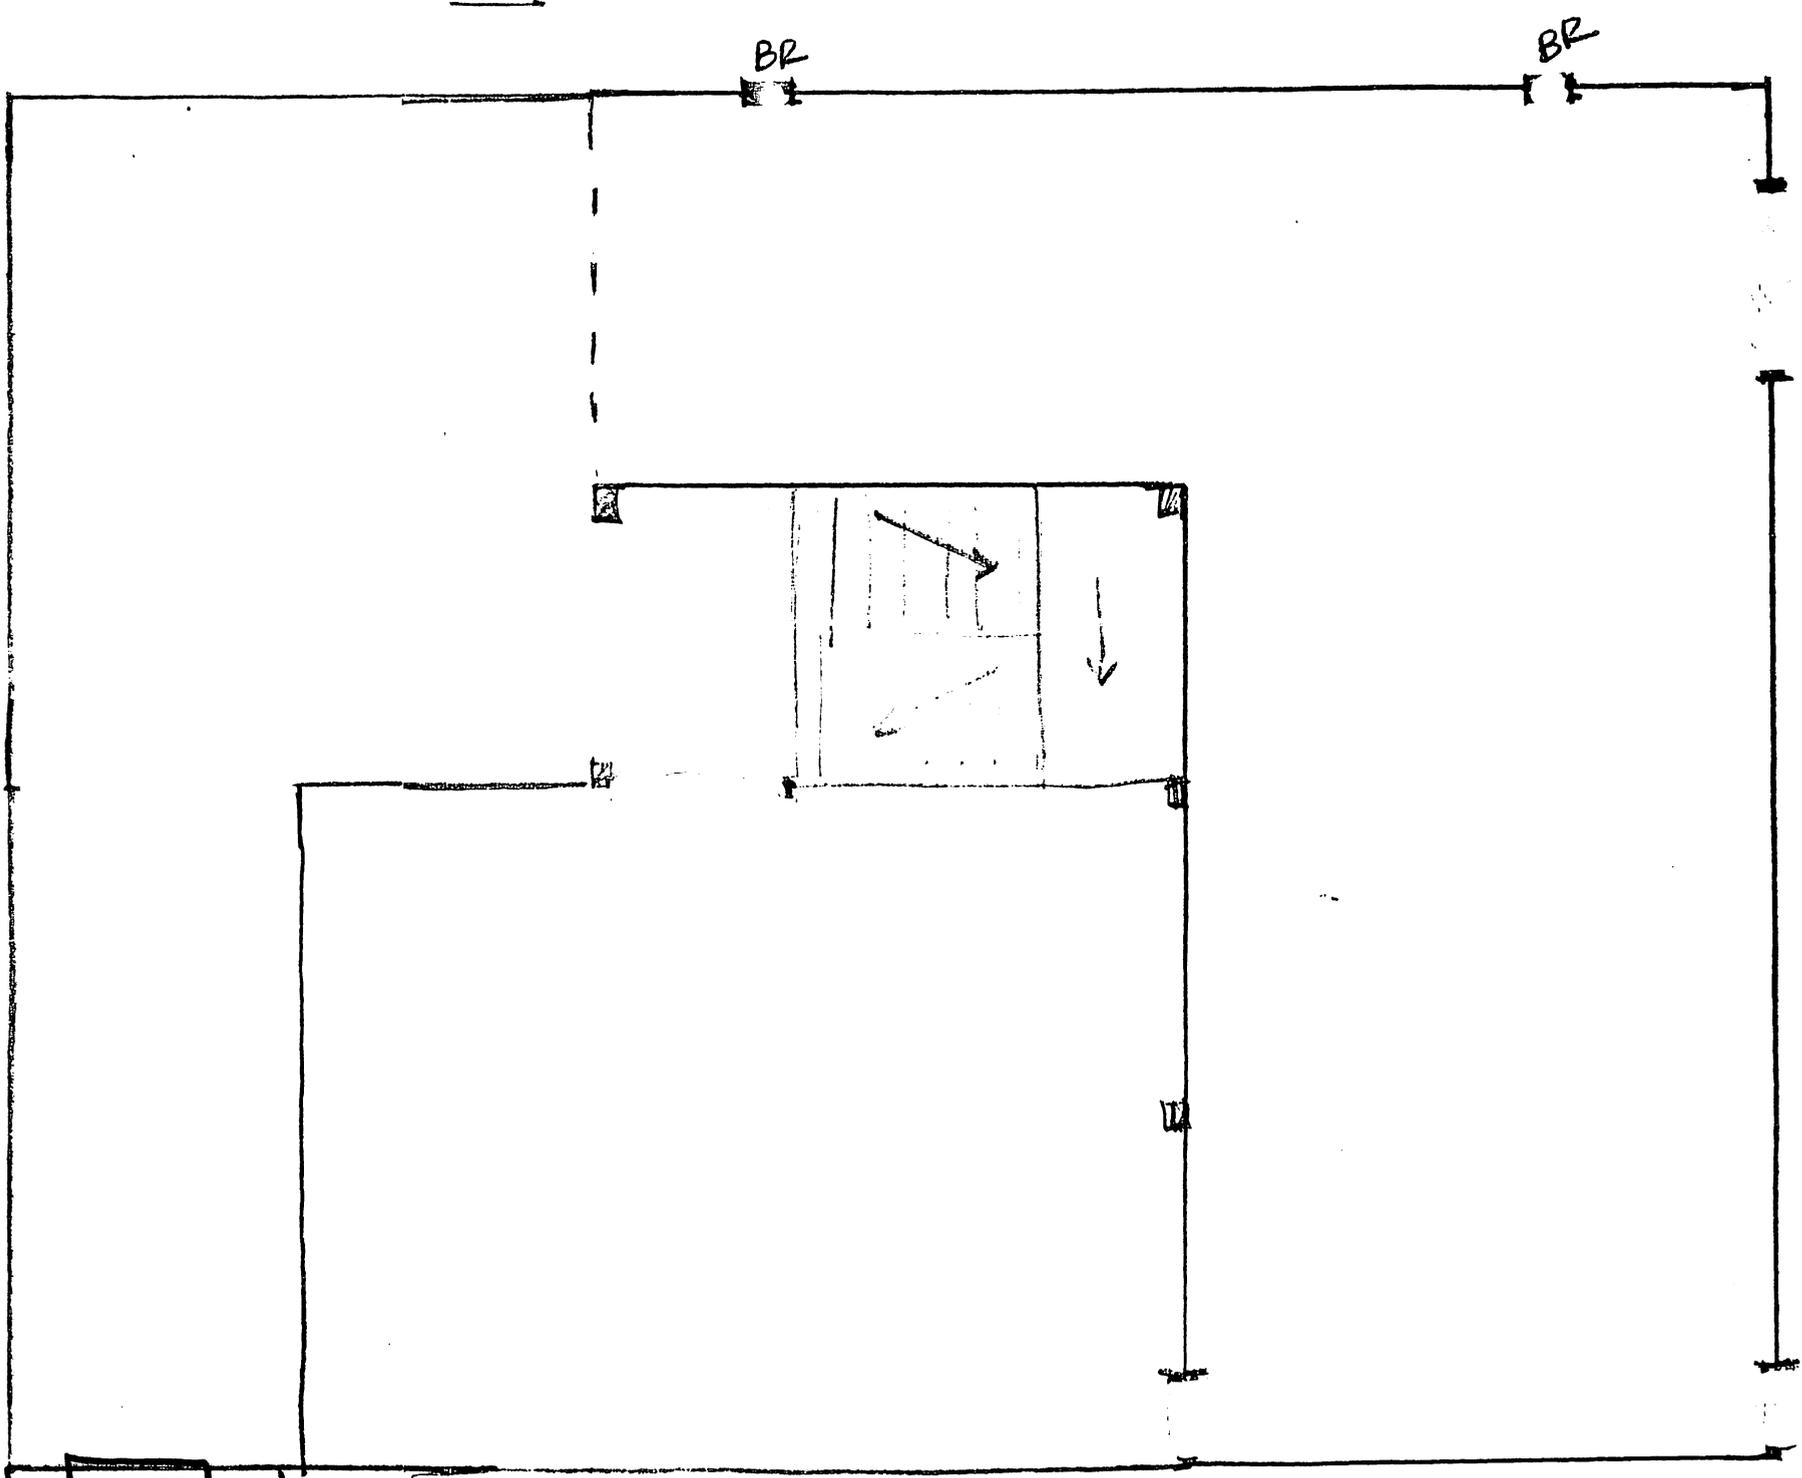

IBM will in no event be liable for lost profits or other consequential damages even if IBM has been advised of the possibility of such damages or for any claim against the customer by any other party.

These terms and conditions of sale constitute the complete and exclusive statement of agreement superseding all oral or written communications and any prior agreements between the parties relating to its subject matter.

The Computer Museum

300 Congress Street
Boston, MA 02210

(617) 426-2800

April 19, 1984

Jay Patton
Manager, Installation Planning Department
Burroughs Corporation
P.O. Box 517
Paoli, PA 19301

Dear Jay:

I am very pleased to hear that you will be able to join us in early September for the deinstallation of the Computer Museum's ILLIAC IV exhibit in Marlboro and it's reinstallation in Boston. Your expertise and direction will greatly facilitate this complex move.

Tentatively, I would like the takedown to occur on Monday, September 10th, the move on Tuesday, September 11th and the installation on Wednesday, September 12th. This may be too much time allotted to each event; however, past experience indicates that moves are always more complex than one expects.

I will contact you in early August with more specific information. At that time, you can better predict how much time you will be able to spend with us and perhaps with more manpower we can move in two days rather than three. Of course, we will pay for your transportation, accomodation and dinner expenses. Also, if you wish, we would be happy to make travel and hotel arrangements for you.

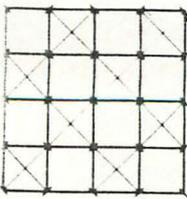

I greatly appreciate your support of The Computer Museum and thank you in advance for your assistance with the ILLIAC IV move.

Sincerely,

Meredith T. Stelling

Allison Stelling
The Computer Museum
300 Congress Street
Boston MA 02210

Dear Ms. Stelling,

As per your request, I am submitting my estimate for your computer move from Central New England Warehouse in Worcester MA to Boston MA. This will consist of moving computers from the top floor of a Worcester warehouse to The Computer Museum, unskidding and placing the computers.

The estimate is performed to give the customer a close approximation of costs involved and allow the moving company to determine how many men, trucks, etc. will be needed to complete the work. The Computer Museum will receive a 22% discount on all charges.

Our hourly rates are as follows:

- \$17.00/hour per straight truck
- \$17.00/hour per tractor/air ride trailer
- \$26.00/hour per helper (straight time)
- \$26.00/hour per supervisor (straight time)
- \$26.00/hour per driver (straight time)

Overtime applies Monday through Friday, 5:00 p.m. through 8:00 a.m., and all day Saturdays, Sundays and holidays.

My estimate is as follows:

PHASE I - June 20

| | |
|--|---------------|
| 1 40' Tractor trailer unit and 1 28' straight truck, 6 men for 7 hours | \$1330.00 |
| Travel charge - 1 hour | <u>190.00</u> |
| | \$1520.00 |

PHASE II - June 21

| | |
|--|---------------|
| 1 40' Tractor trailer unit and 1 28' straight truck, 6 men for 7 hours | \$1330.00 |
| Travel charge - 1 hour | <u>190.00</u> |
| | \$1520.00 |

Total charge for two phases
Less 22% discount

\$3040.00
669.00
\$2371.00

If you have any further questions concerning this move, feel free to call me.
I appreciate you allowing me to submit this estimate and thank you for calling
us.

Sincerely,

Ed Potter
Industrial Move Manager

STRAIGHT BILL OF LADING — SHORT FORM — MEMORANDUM — Not Negotiable

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading.

the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Uniform Freight Classification in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment. Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

VALUATION STATEMENT

This shipment is released to Carrier upon the terms and conditions and limitation of liability contained in the applicable tariff, unless otherwise noted hereon by an authorized Carrier representative. If the shipper desires to increase Carrier's liability, the shipper must contact the Carrier representative that registered the shipment with Carrier and obtain Carrier's approval for such increased liability. CARRIER'S DRIVER IS NOT AUTHORIZED TO CHANGE THE TERMS AND CONDITIONS, INCLUDING WITHOUT LIMITATION CARRIER'S LIABILITY, APPLICABLE TO THE SHIPMENT. Carrier shall have no liability above the released value contained in the tariff if Carrier has not agreed in advance to such increased liability and the shipper has not paid the increased rate applicable thereto.

Dear Jamie,

Enclosed are the release forms for the equipment we took out of the Worcester warehouse. I xeroxed them for our records, but did not take any copies. If you think I need a copy for some reason, could you send one to me?

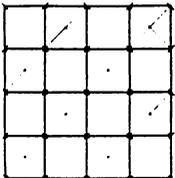

Thanks for all your help.

Yours,

Allison Stelling

Marlboro, MA 01752

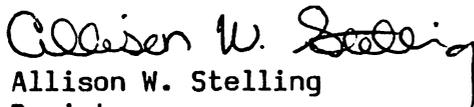

Dear Jamie:

I am writing to confirm the move of our equipment from Central New England Warehouse at 10 Pullman St, Worcester (tel: 853-2849) on June 20th and 21st. I talked to Janice Moore today about having either you or her call them to release the equipment. The trucks will be arriving from North American Van Lines around 8:30 or 9:00 AM and I will be there both days. Our contacts there are Ginny Lucey and Marge.

I am enclosing a copy of the list of objects we are taking for your informaion.

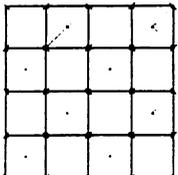

If there are any problems with these arrangements, please let me know.

Sincerely,

Allison W. Stelling
Registrar

Subject: move from warehouse

Next Monday and Tuesday we will be moving our collections that have been stored in a warehouse in Worcester to Bay 1 floor 6 for a visible storage space. The space will be used to show prospective donors some of our special machines that are not on exhibit. Accordingly, the elevator will be tied up both days periodically from about 11:30 on.

Allison Stelling
The Computer Museum
300 Congress Street
Boston MA 02210

Dear Ms. Stelling,

As per your request, I am submitting my estimate for your computer move from Central New England Warehouse in Worcester MA to Boston MA. This will consist of moving computers from the top floor of a Worcester warehouse to The Computer Museum, unskidding and placing the computers.

The estimate is performed to give the customer a close approximation of costs involved and allow the moving company to determine how many men, trucks, etc. will be needed to complete the work. The Computer Museum will receive a 22% discount on all charges.

Our hourly rates are as follows:

\$17.00/hour per straight truck
\$17.00/hour per tractor/air ride trailer
\$26.00/hour per helper (straight time)
\$26.00/hour per supervisor (straight time)
\$26.00/hour per driver (straight time)

Overtime applies Monday through Friday, 5:00 p.m. through 8:00 a.m., and all day Saturdays, Sundays and holidays.

My estimate is as follows:

PHASE I - June 20

| | |
|--|------------------|
| 1 40' Tractor trailer unit and 1 28' straight truck, 6 men for 7 hours | \$1330.00 |
| Travel charge - 1 hour | 190.00 |
| | <u>\$1520.00</u> |

PHASE II - June 21

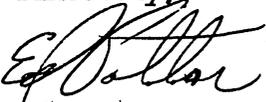

| | |
|--|------------------|
| 1 40' Tractor trailer unit and 1 28' straight truck, 6 men for 7 hours | \$1330.00 |
| Travel charge - 1 hour | 190.00 |
| | <u>\$1520.00</u> |

Total charge for two phases
Less 22% discount

\$3040.00
669.00
\$2371.00

If you have any further questions concerning this move, feel free to call me.
I appreciate you allowing me to submit this estimate and thank you for calling
us.

Sincerely,

Ed Potter
Industrial Move Manager

Marlboro, MA 01752

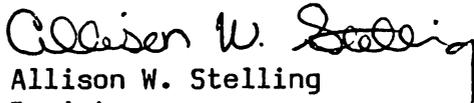

Dear Jamie:

I am writing to confirm the move of our equipment from Central New England Warehouse at 10 Pullman St, Worcester (tel: 853-2849) on June 20th and 21st. I talked to Janice Moore today about having either you or her call them to release the equipment. The trucks will be arriving from North American Van Lines around 8:30 or 9:00 AM and I will be there both days. Our contacts there are Ginny Lucey and Marge.

I am enclosing a copy of the list of objects we are taking for your informaion.

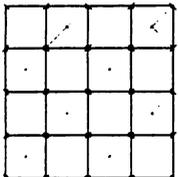

If there are any problems with these arrangements, please let me know.

Sincerely,

Allison W. Stelling

Subject: Move to warehouse

I have set up a tentative date of Monday, June 20th to move everything from the warehouse in Worcester to Bay 1. The date is tentative until I see the estimate from the movers, but I do not foresee any problems. According to the movers, they will pick up the machines around 8:30 - 9:00 in Worcester and will be here between 11:00 and 12:00.

If there are any problems with this schedule, please talk to me as soon as possible.

EVERYTHING TO MOVE TO THE MUSEUM - BAY 1 - ANY SORT
HAPPENS LATER - 27 items

3. X117.82 (3 items: 2 equipment and one box of boards) Fairchild Symbol Machine. the main CPU Unit is at the Museum.

1 X 119. Clary DE 60 (The Clary DE 600 will be deaccessioned)

6 X169.83 IBM 1620 computer system with core storage, card reader, disk drive, etc. -- set up as a system.

2 X46.82 IBM data cell and data cell drive -- do we keep the drive?

1 D119.80 Classic PDP-8 in a box

1 D136.81 Classic PDP-8 plexi cover in a box

3 X192.83 IBM5424; 5410 unidentified;- system 3;

1 XD323.81 IBM Soroban (typewriter?) in small box

1 X48.82 Bendix G15 parts

1 X103.,82 Calcomp model 565 plotter

2 X436.84 Amdahl 470 - 2 cabinets

1 X40.80 IBM 24 card punch - early

2 X38.81 CDC 6600 - 2 bays, one has a problem with the frame and needs to be fixed prior to moving.

1 X42.79 GPS Analog Computer

1 X180.83 IBM 360 195 console, in wooden box.

no. date / size location

THINGS TO BE SORTED OUT AT THE WAREHOUSE AND DECISIONS
MADE - 34 items

3 X136.82 Philco 212 system. If the tape drive is a standard Ampex tape drive and if we have another of that era, then this one should be discarded. 212 console has been cannibalized, the front panel should be saved and the ten foot long chassis deaccessioned (junked). The third component should be looked at.

KEY TO THE DEACCESSIONING FORM

Points are derived from "Guidelines for Developing a Policy"
Museum News November/December 1979

- A. Name of the item (and number)
- B. Is the object no longer relevant and useful to the purposes and activities of the museum? (For example, we decided not to collect typewriters although we did for a period in our early history.)
- C. Is there danger of not being able to preserve the object properly? (For example, at present we don't have the environment for truly rare books and the likelihood is rare; should the material then go to an appropriate rare book collection that would accept and care for it.)
- D. Has the object deteriorated beyond usefulness?
- E. Is it doubtful that the object can be used in the foreseeable future? (For example, would it ever be used in an exhibit, even educational visible storage? If not, is it a likely candidate for historical research?)
- F. Is there a need to improve or strengthen another area of the collections in order to further the goals of the museum? (For example, deaccessioning some of the extensive DEC collection to make room for items from other manufacturers.)
- G. Can the object be donated or exchanged? (Is DEC willing to keep it? Can it go to another collection or museum? Can it go to the educational department as a hands on, take it apart object?)
- H. Can it be sold? (Does it have any market value.)
- I. May the object be destroyed?
- J. Approval by the Collections committee.

Dear Mr. Potter:

I am enclosing the list of items to be moved from the warehouse in Worcester to The Computer Museum in Boston. There may be one or two discrepancies; however, someone from the museum will be at the warehouse that day to help sort out any problems.

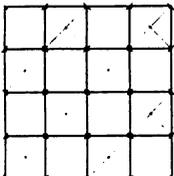

Please contact me as soon as you have an estimate.

Thanks for all your help.

Sincerely yours,

Allison W. Stelling

Subject: Bay 1 Cleanup

Dave, the latest plans for Bay 1, Floor 6 include 1) a painting party (floors and walls) scheduled for Tuesday afternoon, June 14th, and 2) relocation and move of artifacts from DEC warehouses to the museum on Monday, June 20th. In order to facilitate a successful transition, would you please initiate the following:

- 1) removal of Museum Wharf property from Bay 1, including the large air conditioning unit, several large panes of glass, several building shutters, two large metal signs, and other miscellaneous Children's or MW property.
- 2) installation of plastic sheeting on the ceiling of this bay. As we agreed previously, the cost of this project component is to be absorbed by Museum Wharf as a building expenditure.
- 3) obtain a quote for the installation of additional lighting in this bay, or, if not necessary, facilitate installation. It is not clear to me whether or not this has any bearing on the plastic sheeting installation.

Please let us know immediately if there are any problems or complications affecting completion of these requests in accordance with our planned schedule. Thanks.

TO: See Below

Subject: Warehouse and visible storage

The following schedule has been agreed to:

June 2 - Allison, Gwen, Dan and Oliver go to the warehouse in Worcester. Allison will measure all the items definitely coming to the Museum. Gwen, Dan and Oliver will go over each of the items that are questionable. (Screwdriver will be needed - some will have to be looked at to determine if the console can be detached from a rack etc. and decisions will be made whether to de-accession or to keep, or to keep in part.)

All the Objects will be labeled as to their destination:
Museum wharf
Digital Northboro
Digital Northboro then destroy

June 4 - Gwen will contact NASA Ames again to find out the disposition of the ILLIAC IV and to determine whether the random parts can be disposed of here or whether they want it all returned.

June 17 - Tom completes Bay 1 (with the help of Museum Wharf)

June 20th week - Move is arranged to Boston. On the day, the large elevator will be out of commission for half hours at a time while objects are being brought up. Extra help will be needed that day. Lynn is arranging the date with the movers. She will let us know the exact date next week. A plan will be made for Bay 1 and each object will be put in a specific place. Allison and Gwen will complete the plan and mark the places in Bay 1 before the move.

June 27th week - DEC will remove all remaining objects from the warehouse to Northboro.

mid-July - Gwen and Allison will inspect the Northboro objects.

July - a final plan will be made for Bay 1; and for disposition of space in the other bays.
