

March 28, 1988

Dear Reid,

I want to thank you for lunch a few weeks ago and the opportunity to tell you about the Computer Museum. I have to apologize for taking so long to get back to you, but I have been in Japan and the Far East for the last three weeks. I really enjoyed seeing your antique steam engine models and your computer artifacts. We would like to add the REI sensor's and the Seagate disk drive to the Museum's listing of artifacts in private collections.

Enclosed is some material about the Computer Museum. I encourage you to visit the Museum the next time you are in Boston and would welcome the opportunity to give you a personal tour. I think you will see an institution that has combined a fine historical collection with educational, interactive, and entertaining exhibits.

Thank you again for your hospitality.

Sincerely yours,

Gardner
