Function Planning Guide

The Computer Museum
Downtown Boston on Museum Wharf
Our award-winning architectural design creates an impressive setting for any event.

The Computer Museum is the only one of its kind in the world. It provides a distinctive atmosphere for any occasion. Your guests can stroll through dramatic galleries of computers large and small, see the best collection of robots on earth, or try out dozens of hands-on exhibits while socializing with colleagues and friends.

Located on Boston's waterfront in a stylishly renovated historic building, the Museum offers a pleasant blend of past and present. Its original wood beams, exposed brick, and the latest in computer technology lend a special character and warmth to your event.

The versatile 3200 square-foot function space, with its impressive view of the Boston skyline, is appropriate for everything from seminars and press conferences to luncheons, dinners, and receptions.
Attention to Detail

The professional staff at the Museum will work closely with you to ensure a successful event.

Catering Needs

Select the caterer you wish from our convenient “Approved Caterers List.”

Table/chair Rental

Table and chair rentals are available through the Museum.

Audio-visual Equipment

The function space has a professional projection booth outfitted with state of the art sound equipment, video, 16mm, slide and overhead projectors. This equipment is available to you at no additional charge. A video projection system is also available for a nominal fee. Consult our Functions Manager to discuss the audio-visual needs of your meeting.

Rates

Our rates are competitive and affordable. Call the Functions Manager for our current rate schedule.

Guided Tours

Guided tours of the galleries can be arranged for your guests at a modest additional charge. Interpreters are located throughout the galleries to answer questions during receptions held in the Museum.

Corporate Membership

Corporate members receive a number of benefits. These include preferred rates for facilities rental, free passes for employees and business associates, invitations to our exclusive events, and a listing in The Computer Museum’s quarterly magazine. For more information about becoming a corporate member, please contact our Functions Manager.

The Computer Museum Store

Give your guests a gift that will remind them of your event at The Computer Museum. The Store offers a variety of computer-related gifts ranging from chocolate floppy disks to elegant computer jewelry. Write or call The Computer Museum Store for more information.

What will you find at The Computer Museum?

Begin with a sweeping ride up Boston's largest glass-enclosed elevator to the top floor where you can socialize with associates; then wander through the new “Smart Machines” gallery and watch a computer artist draw or another one compose music.

After catching a multimedia show featuring more than 25 robots, walk down the spacious staircase and take in the dramatic blue lighting and flickering monitors of the SAGE Gallery below. The “Blue Room” offers a striking backdrop for any sort of musical entertainment.

• Walk inside a vacuum tube computer—this is one part of the largest in the world. Built for the U.S. Air Force, the AN/FSQ-7 used over 25,000 vacuum tubes and occupied a four story building.

• Stroll by the Computer Timeline and trace the development of the computer from 1950 to 1969 through this three-dimensional timeline or watch the latest computer-generated video show in the award-winning Animation Theater.

• See the IBM 1401 computer and programmer rooms, recreated to illustrate the most widely used computer of the 1960s. Try making your own punched card on the keypunch machine.

• Experiment with different ways of putting information into computers and getting

Our adaptable function space offers a stunning view of downtown Boston.

information out in the Personal Computer Gallery. DECTalk, a voice synthesized computer, will actually speak what you type. Draw colorful pictures using a "mouse" on a Data General desktop computer. A Hewlett-Packard personal computer doesn't even use a keyboard; just touch the screen and it responds to your commands.

- Try out more than 20 hands-on exhibits involving electronic pictures in The Computer Museum Image Gallery. Watch a plotter draw Boston's skyline, design your own car, fly a plane or create a fractal snowflake—all on computers.

This is just a sample of the many exhibits you can see at The Computer Museum.

**Some successful events held at The Computer Museum...**

- eight receptions and dinners for DECWORLD '87;
